injection moulding and assembly.

Mission

We strive to transform garden care activities into an all-round wellness experience. Our passion guides us in the research of new top quality products. Our flexibility means we can adapt to meet each new challenge

Continuous research & evolution

We are guided by our passion for constant innovative progress to make high quality products, never resting on our laurels but always striving ahead. We meet each new challenge by giving our best to secure the best results. Due to the use of that most precious of resources: water, we strive to transform every garden space into an inexhaustible source of wellness. An international organisation operating in more than 50 countries. We have 50 years' experience in thermoplastic moulding and high-tech tooling design. Our products arise from the desire to keep one step ahead of the demands of our clients, offering a unique interpretation of market trends. We start from end users' needs so we can create technical products of superior quality that are easy to use and will always exceed expectations. A company with a lean structure and an efficiency-based business model that allow us to guarantee absolute quality and reliability, from the concept right through to sales. We offer our legacy of professional experience to develop products that combine style, emotion, function and passion for the upkeep of green spaces.

Strengths

The full spectrum: R&D department, a dynamic and creative marketing team to handle the product development process, from creation of the product design to placement on the market. Superb quality, thanks to careful selection of materials and an efficient and technologically refined manufacturing system. A highly effective logistics and sales system that guarantees capillary distribution and attentive customer services.

Quality makes the difference

Continual improvement of the quality of products and services, use of premium grade materials, control of products and processes, customer satisfaction analysis, energy saving, reduction of emissions and environmental impact: these are the priorities that have always guided our business. Compliance with **EN ISO 9001:2015 and EN ISO 14001:2015** is an important guarantee for clients and a testimony to the company's active and constant commitment.

2026 FROM ORIGINAL TO GF PRO

GF PRO

GFPRO is the new professional product line from GF, made with innovative and carefully selected materials. Designed for those who demand high performance, reliability, and long-lasting durability, GFPRO is built for intensive use, even in challenging environments. It combines technical innovation with outstanding build quality: every detail is engineered to ensure a safe, efficient, and long-lasting user experience, thanks to targeted design solutions and functional design.

Dedicated to all true serious gardeners, it's ideal for those who work with greater experience and precision. GFPRO meets the needs of the most demanding gardener with practical, modern, durable, and high-quality tools.

The line blends Italian design with ergonomics, offering a complete range of reliable and long-lasting irrigation products.

01/TAP CONNECTORS

A range of sizes, for every type of tap, perfect for easily connecting quick click connectors.

ABOVE-GROUND IRRIGATION

Threaded tap connector

- Internal screw thread for tap
- Grabbing surface
- Male connection to connect to the hose terminal

GF80005433	pack			Box (LxWxH) cm 20,7x14,7x10,4	10 Pcs	0,28 Kg	
GF80003433	pack			Box (LxWxH) cm 15x15x12	25 Pcs	0,28 Kg	
GF80043433	pack			Box (LxWxH) cm 40x12,8x14	70 Pcs	0,82 Kg	
 ø 3/4" 20 x 27 mm							

Threaded tap connector

- Internal screw thread for tap
- Grabbing surface
- Male connection to connect to the hose terminal

GF80005432	pack			Box (LxWxH) cm 20,7x14,7x10,4	10 Pcs	0,31 Kg	
GF80003432	pack			Box (LxWxH) cm 15x15x12	25 Pcs	0,32 Kg	
GF80043432	pack			Box (LxWxH) cm 40x12,8x14	70 Pcs	0,91 Kg	
 ø 1" 26 x 34 mm							

Smooth tap connector

To link the programmer to taps without threads.
With a metal clamp having a butterfly handle for secure use.

GF80005446	pack			Box (LxWxH) cm 22,7x15,2x15,4	10 Pcs	0,78 Kg	
GF80043446	pack			Box (LxWxH) cm 40x12,8x14	25 Pcs	1,67 Kg	
 12x18 mm							

Swivel tap connector

Swivel tap connector with 180° joint to connect the hose to the tap, to avoid kinks during use.
• 3/4" (20-27mm) tap connector

GF80005074	pack			Box (LxWxH) cm 30x24,5x11,7	10 Pcs	0,90 Kg	
GF80043074	pack			Box (LxWxH) cm 39x24x13,5	30 Pcs	1,75 Kg	
 ø 3/4" 20 x 27 mm							

Dual outlet tap connector

Dual outlet tap connector with differentiated water flow adjustment.
Flow-rate regulator-modulator for each outlet to adjust separately the flow rate until the total closing.
Useful for coupling more accessories simultaneously.

GF80005073	pack			Box (LxWxH) cm 37x24x19,5	8 Pcs	1,50 Kg	
GF80043073	pack			Box (LxWxH) cm 40x24,8x14	8 Pcs	1,50 Kg	
 ø 3/4" 20 x 27 mm							
 MULTI function							

 	Multi-outlet distributor for threaded taps 5 separate adjustable connections to link to hose connectors or programmers. Has 3 adjustable ball-cocks.						
	GF80005072	pack 	 Box (LxWxH) cm 37,5x25,5x15,5	4 Pcs	1,21 Kg		 8 004779 000409

05/ NOZZLES AND ERGONOMIC NOZZLES

ABOVE-GROUND IRRIGATION

Easy-to-use, accurate and efficient spray nozzles for perfectly watering flowers and plants. Lightweight, compact and easy to handle, the simple and practical design makes them ideal for easy watering in total comfort.

"8 JET" variable flow rate ergonomic nozzle

- "8 JET" circular selector jet, with grooved edge to make easier its use
- Flow-rate regulator-modulator covered in non-slip soft rubber
- Maximum flow 18 l/min at 4 bar

GF80005528	pack			Box (LxWxH) cm 29,7x24,2x11,4	8 Pcs	1,30 Kg	
GF80043528	pack			Box (LxWxH) cm 40x25x14,5	16 Pcs	2,25 Kg	

"3 JET" variable flow rate ergonomic nozzle

- "3 JET" jet selector: fixed, fanned-or-coned-type
- Flow-rate regulator-modulator covered in non-slip soft rubber
- Maximum flow 18 l/min at 4 bar

GF80005527	pack			Box (LxWxH) cm 29,7x24,2x11,4	8 Pcs	1,15 Kg	
GF80043527	pack			Box (LxWxH) cm 40x25x14,5	16 Pcs	2,35 Kg	

Medium flow spray nozzle

- Jet adjustment from conical spray to direct jet
- Flow adjustment
- Maximum flow 18 l/min at 4 bar

GF80005407	pack			Box (LxWxH) cm 37,5x25,5x15,5	8 Pcs	0,93 Kg

06/SPRAY GUNS

ABOVE-GROUND IRRIGATION

Essential accessories to use the water in the specific and exact way, without wastes and efforts.
Essential and compact design to obtain maximum efficiency and simplicity of use.

Medium flow rate watering gun "3 JET"

- Flow rate regulator-modulator with soft non-slip rubber covering
- Front lever with locking device
- "3-JET" selector: fixed, fan and cone jet
- Max. flow rate 20 l/min at 4 bar

GF80006903	pack		Box (LxWxH) cm 36x21,7x12	6 Pcs	1,27 Kg	
GF80043903	pack		Box (LxWxH) cm 40x24,8x14,5	10 Pcs	1,50 Kg	

Medium flow rate watering gun "3 JET METAL"

- Rugged metal structure with preventive anti-corrosion treatment
- Flow rate regulator-modulator with soft non-slip rubber covering
- Front lever with locking device
- "3-JET" selector: fixed, fan and cone jet
- Max. flow rate 20 l/min at 4 bar

GF80006902	pack		Box (LxWxH) cm 36x21,7x12	6 Pcs	2,00 Kg	
GF80043902	pack		Box (LxWxH) cm 40x24,8x14,5	10 Pcs	1,90 Kg	

Watering gun

- Handle with soft non-slip rubber covering
- Rear adjustment lever to lock the jet.
- Outlet control from fine atomized spray to concentrated jet.
- Maximum flow rate 12 l/min at 4 bar.

GF80006922	pack		Box (LxWxH) cm 29,7x24,4x11,4	8 Pcs	1,95 Kg	
GF80043922	pack		Box (LxWxH) cm 40x24,8x14,5	12 Pcs	2,90 Kg	

"Metal rubber" watering gun

- Rear adjustment lever to lock the jet
- Aluminium tip for adjusting the jet from fine to conical spray
- Maximum flow 12 l/min at 4 bar.

GF80006924	pack		Box (LxWxH) cm 29,7x24,4x11,4	8 Pcs	1,95 Kg	
GF80043924	pack		Box (LxWxH) cm 40x24,8x14,5	12 Pcs	2,90 Kg	

Watering gun Kit

- watering gun
- 3/4" tap connector
- "OPEN" and "ACQUASTOP" hose connectors

GF80006925	pack		Box (LxWxH) cm 37,5x25,5x15,5	6 Pcs	1,50 Kg	

06/MULTI-JET SPRAY GUNS

ABOVE-GROUND IRRIGATION

Precise and multifunctional equipment, ideal for watering plants and flowers that need a very sweet and gentle jet. The practical selector allows you to easily select the most suitable jet for every need.

Medium flow rate watering gun "8 JET"

- Flow rate regulator-modulator with soft non-slip rubber covering
- Front lever with locking device
- Circular "8 JET" selector with ergonomic rubber rim to promote grip and maximise ease of use
- Inspectable micro-perforated disk for possible periodic maintenance requirements
- 20 l/min maximum flow rate at 4 bar

GF80006905	pack		Box (LxWxH) cm 36x21,7x12	6 Pcs	1,50 Kg	
GF80043905	pack		Box (LxWxH) cm 40x24,8x14,5	6 Pcs	2,00 Kg	

Medium flow spray watering gun "8 JET METAL"

- Rugged metal structure with preventive anti-corrosion treatment.
- Flow rate regulator-modulator with soft non-slip rubber covering.
- Front lever with locking device
- Circular "8 JET" selector with ergonomic rubber rim to promote grip and maximise ease of use.
- Inspectable micro-perforated disk for possible periodic maintenance requirements.
- Maximum flow rate 20 l/min at 4 bar.

GF80006904	pack		Box (LxWxH) cm 36x21,7x12	6 Pcs	2,30 Kg	
GF80043904	pack		Box (LxWxH) cm 40x24,8x14,5	6 Pcs	2,25 Kg	

Multi-jet watering gun

Simply rotating the front ring allows the user to select 8 different water spray types

- Handle with soft non-slip rubber covering
- Rear adjustment lever to lock the jet.
- Maximum flow rate 10 l/min at 4 bar

GF80006923	pack		Box (LxWxH) cm 36x21,7x12	8 Pcs	2,08 Kg	
GF80043923	pack		Box (LxWxH) cm 40x24,8x14,5	10 Pcs	2,60 Kg	

"Metal rubber" multi-jet watering gun

- Allows the selection of 8 different types of jet by simply rotating the front ring
- Rear lever for adjusting and locking the flow
- Maximum flow 10 l/min at 4 bar.

GF80006927	pack		Box (LxWxH) cm 36x21,7x12	8 Pcs	2,08 Kg	
GF80043927	pack		Box (LxWxH) cm 40x24,8x14,5	10 Pcs	2,60 Kg	

"8 JET Easy" watering gun Kit

- "8 JET Easy" watering gun
- 3/4" tap connector
- "OPEN" and "ACQUASTOP" hose connectors

GF80006926	pack		Box (LxWxH) cm 37,5x25,5x15,5	6 Pcs	1,60 Kg	

 	“XL Selector” spray watering gun 5JET • Large selector (ø 9cm) with ergonomic rubber • 5 different spray patterns, including a wide shower spray and an perlator (air-mixed spray), suitable for delicate plants and flowers, even in pots. • Flow rate regulator-modulator with soft non-slip rubber covering • Front lever with lock ng device • 20 l/min maximum flow rate at 4 bar						
	GF80006937	pack		Box (LxWxH) cm 36x21,7x12	4 Pcs	1,12 Kg

 	“XL Selector” spray watering gun 5JET metal-rubber • Large selector (ø 9cm) with ergonomic rubber • 5 different spray patterns, including a wide shower spray and an aerator (air-mixed spray), suitable for delicate plants and flowers, even in pots. • Flow rate regulator-modulator with soft non-slip rubber covering • Front lever with locking device • 20 l/min maximum flow rate at 4 bar • Corrosion-resistant metal end, and selector back cover						
	GF80006938	pack		Box (LxWxH) cm 36x21,7x12	4 Pcs	1,40 Kg	
	GF80043938	pack		Box (LxWxH) cm 40x24,8x14	4 Pcs	1,36 Kg	
	     						

08/BORDER SPRAYERS		Accessories suitable for watering of flower pots, edges and flower beds requiring a precise, fine and delicate jet. The comfortable extensions outfit of integrated flow adjustment tap, allow you to easily reach even the less accessible places.				
ABOVE-GROUND IRRIGATION						

 	Click-on watering head Produces a thin gentle jet ideal for delicate flowers. • Micro-holed disc that can be inspected for internal cleaning • Maximum flow 30 l/min at 4 bar						
	GF80005430	pack		Box (LxWxH) cm 29,7x24,2x11,4	10 Pcs	0,67 Kg	
	GF80043430	pack		Box (LxWxH) cm 40x12,8x14	25 Pcs	1,04 Kg	
							

 	Border Watering Gun Produces a thin and gentle jet ideal for delicate flowers • Micro-holed disc that can be inspected for internal cleaning • Flow rate regulator-modulator with soft non-slip rubber covering • Front lever with lock ng device • 20 l/min maximum flow rate at 4 bar						
	GF80006928	pack		Box (LxWxH) cm 36x21,7x12	6 Pcs	1,04 Kg	
	GF80043928	pack		Box (LxWxH) cm 40x24,8x14	6 Pcs	0,98 Kg	
	    						

 	Multi-jet watering wand with adjustable head Ideal for watering hard-to-reach places such as flower beds, vases and hanging baskets. • 8 different jet types • Tap for micro-adjustment of flow • Adjustable joint • Maximum flow 16 l/min at 4 bar						
	GF80005448	pack		Box (LxWxH) cm 78,4x14,4x13,4	4 Pcs	1,07 Kg	
	 						

09/CIRCULAR SPRINKLERS

ABOVE-GROUND IRRIGATION

“CONO” sprinkler

Static sprinkler for small areas and when a very gentle and fine jet is required. Stake version.

- Maximum flow 23 l/min

GF80005619	pack			Box (LxWxH) cm 37,5x25,5x15,5	8 Pcs	0,90 Kg	
GF80043619	pack			Box (LxWxH) cm 29,7x24,2x11,4	8 Pcs	0,60 Kg	

“ROTAX” sprinkler

Ideal for watering medium-small areas. Stake version.

- Adjustable nozzles to optimise the watering depending on the type of plants
- Maximum flow 19 l/min.

GF80005633	pack			Box (LxWxH) cm 37,5x25,5x15,5	8 Pcs	1,00 Kg	
GF80043633	pack			Box (LxWxH) cm 29,7x24,2x11,4	8 Pcs	0,75 Kg	

“MINI DRIVER” sprinkler stake version

Multi-purpose circular sprinkler on stake. Features stake for easy insertion in the ground. Simply rotate the disc to control watering of 4 different areas.

- Maximum flow rate 16 l/min

GF80005616	pack			Box (LxWxH) cm 39x28,5x17,5	12 Pcs	1,60 Kg	
GF80043616	pack			Box (LxWxH) cm 37,5x25,5x15,5	12 Pcs	1,29 Kg	

“4 JET LIFT” sprinkler

Professional rotating sector sprinkler with turbine movement suitable for watering any surface even very large areas. Stake version.

- 4 different jet types
- Adjustable head for varying the watering area
- Watering angle from 15° to 360°
- Maximum flow 15 l/min

Watering Computer Kit 20 pots/zones AQUATIME Solar UNO.3

Kit Ready Solar-Powered Irrigation Timer:

- **AUTONOMOUS:** Thanks to the integrated solar panel ($\approx 3500 \text{ mm}^2$) and pump system, it does not require an electrical outlet or connection to the water supply.
- **ECO-FRIENDLY:** Powered by solar energy, even on cloudy days thanks to rechargeable batteries, requiring 1.2V AA NiMH (HR6) batteries with a minimum capacity of 2000 mAh (not included in the kit).
- **SIMPLE and SAFE:** Just place the intake system in a container filled with water and select one of the 13 preset programs by turning the dial (to activate manual starts out of the programming cycles, set the dial to MAN). Additionally, the electronic components are protected from water and humidity.
- **PRACTICAL:** Thanks to the hook on the back, you can hang the timer on the wall or, by folding the support, place it directly on a flat surface.
- **KIT READY:** The kit contains everything needed for drip irrigation up to 20 zones/pots.

- 1 irrigation timer
- 1 filter integrated into the intake system
- 1 air release valve
- 20m of 4x6 capillary hose
- 20 stakes for capillary hose
- 20 self-compensating drippers (2 l/h)
- 2 straight connectors
- 2 elbow connectors
- 20 T-connectors
- 4 end plugs

ElectricWeeder

Delivers a thermal shock to the weed (up to 650°) that will destroy the plant cells and the weed in just a few seconds.

ECO-FRIENDLY : no chemicals, pesticides and gas are used so there are no CO2 emissions and no waste.

SAFE : no flame. The hook at the back allows the product to be placed horizontally on the floor, without the nozzle touching the ground, so that the product cools down safely.

ECONOMICAL : no consumables to replace e.g. gas or pipe. 10 times less expensive than a gas weeder.

EFFECTIVE AND ROBUST : destroys the plant cells and the weed in just a few seconds. Motor with robust heating elements, providing the GF Electric Weeder with a long service life.

PRECISE : 2 nozzles included :

A round nozzle, ideal for removing weeds from the lawn, flower beds, or vegetable garden. A flat nozzle for precise weeding of borders.

ENGINE POWER : 2000W

ERGONOMIC : comfortable to use thanks to its 116 cm length. Ergonomic handle with easy-to-use power button

Included:

- 1 cone nozzle (pre-fitted) • 1 flat nozzle • 1 set of operating instructions

Technical data:

Rated voltage 230 V - 50 Hz (alternative current)

Rated power consumption: max. 2000 W

Temperature (nozzle outlet): approx 650°

Protection class: II/ (double insulation)

ACCESSORY INCLUDED

**BE DIFFERENT.
BE UNCONVENTIONAL.**

This is GF Garden.
Understated shapes.
Bold lines.
Pure colours.
Bring style to outdoor spaces.
Revolutionise the concept of traditional gardening.

The Unconventional project grew out of a desire to deconstruct the vision of traditional gardening and awaken curiosity, wonder and a sense of belonging. The irrigation products have been taken out of their 'natural habitat' and are no longer represented in the usual way people would use them.

Instead, they have been given a lifestyle twist and transformed into veritable accessories with their own distinctive and appealing character. The reference to their original context remains, yet this now lies in the background, like a decorative frame.

The synergies that are created between the colours, shapes, materials and gestures permeate the visual content of the images, bringing the viewer's own vision of style to the forefront and allowing them to interpret the context on their own.

Spending time in outdoor spaces means personalising them, connecting them to our own lives and moulding them to our desires.

**This is the message
that the GF project
wants to convey.
Rules are not always
set in stone.**

“GF16 EASY”

Electronic programmer

Simple and trustworthy, provides combinations of programs up to 16 possibilities managed through the easy to use knob switch. Starts every 6, 12, 24, 48 hours with prefixed watering times. “Easy garden” program for the optimization of the watering cycles: two preset daily watering to water properly morning and evening, improving the absorption of water by the soil, thus avoiding the plants damaging.

- manual start button for starting independently of the programme cycle
- works with 9 volt alkaline battery
- device to stop the water flow in case the battery runs down
- electrical components protected from water and humidity
- 3/4" attachment to tap
- maximum pressure in use 8 Bar

“GF48” Electronic programmer

It is simple, easy to understand and practical to be used, it is possible to select programs easily managed up to 48 possibilities controlled through the easy to use concentric knob switches and by two selector switches.

- manual start button for starting independently of the program cycle
- button for delaying of 8 hours after the initial setting-up
- works with 9 volt alkaline battery
- device to stop the water flow in case the battery runs down
- electrical components protected from water and humidity
- 3/4" attachment to tap
- maximum pressure in use 8 Bar

Stand-alone drip watering system for pot plants.

Simple and practical, all that the aquaflora holiday system requires in order to function is a plastic drinks bottle of 0.5 to 2 litres capacity. No need to move any plant from its usual place, and no need for makeshift connections to the water supply.

- **simplicity:** to start watering, just attach a plastic bottle filled with water to the spike, pierce a small hole in the upturned bottom so that air can escape, then push the spike into the soil and adjust the flow of water as required.
- **effective watering:** the aquaflora holiday incorporates a special outlet grille that delivers each successive drip directly to the roots, avoiding waste and evaporation of the water.
- **adaptability:** suitable for any kind of pot or planter, whatever the size and shape.
- **indoor and outdoor use**

“AQUAFLOA HOLIDAY” Mix color

A drip watering system for pot plants that will keep all house plants regularly watered during excursions, trips and holidays.

Sunny Line, safe and enviromental frendly

Using the sun's energy in a natural way, SUNNY LINE solar showers produce free hot water: just like a solar panel, the tank base connected to the water mains and exposed to the sun for about 2 hours to heat the water contained in it up to over 60°. This, properly mixed with cold water through the mixer, makes it possible to deliver approximately **60 litres of water at 30°***.

The horizontal development of the base provides better exposure to sunlight compared to vertical development models. The tank base, constantly filled via the connection to the water mains, ensures stability and strength. The pressure regulator also ensures use in total safety.

*The figures vary depending on weather conditions and are calculated in ideal conditions.

"SUNNY NIAGARA" Solar shower

The Sunny NIAGARA solar shower exploits natural sunlight to produce hot water naturally and free of charge.

- Contemporary styling
- Ergonomic mixer that allows more precise temperature control and independent selection of flow rate and temperature.
- Height 2.10 m
- Larger tank base and 20 cm diameter shower head for increased flow rate.

A woman in a white dress stands on a wooden deck, holding a blue hose and spraying water towards a large, rectangular, textured glass panel. The panel reflects the surrounding greenery. In the foreground, a blue watering can sits on the deck. A black hose is coiled on the ground.

WE ARE BLUE

The GF collection made with
plastic collected from coastlines, islands, shores and rivers

What is the GF for ocean collection?

The FOR OCEAN collection is a selection of GF UNCONVENTIONAL products, made with +50% and +80%* of #tide ocean-bound recycled plastic: plastic waste (particularly bottles) collected from coasts, islands and rivers, and transformed into new raw material.

*percentage calculated on the weight of the product, hose not included

what is the OCEAN-BOUND PLASTIC?

It is defined as plastic waste “at risk of ending up in the ocean”, (It is estimated that around 80% of marine plastic waste comes from landbased sources.). The certification divides this plastic waste into 3 main categories:

- 1 / Inadequately collected plastic waste located within 50 km of the coastline
- 2 / Inadequately collected plastic waste located 200m from rivers & in rivers
- 3 / Inadequately collected plastic waste located 200m from shores

in collaboration with
#tide
OCEAN MATERIAL

#TIDE OCEAN MATERIAL

Tide Ocean SA is a Swiss company that collects 100% ocean-bound plastic and turns it into a valuable resource. The award-winning upcycling process is strictly mechanical and was developed in close collaboration with the Swiss University of Applied Sciences. #tide® does not process virgin plastic. Due to its strict ethical business standards and supply chain transparency, #tide® is the most trusted label when it comes to responsible plastic consumption.

tide.earth/EN/

1/Collect Ocean-Bound Plastic:

Coordinating groups of Fishermen in Southeast Asia and in Central America collect plastic waste on islands, beaches and along coastlines.

2. Sort and process plastic in a recycled raw material:

The process is overseen and monitored by a specialized branch of Swiss University.

3/Sell recycled and certified raw material:

All certified 100% Ocean Bound Plastic.

Aquabag 11,5 m and 16,5 m

Designed for any application that requires a compact product, it is ideal for balconies, terraces, medium-sized gardens.

Manually rewinding, portable, easy to store.

- 11,5/16,5 m of braided flexible hose
- 2 quick-click hose connectors • 3/4" tap connector
- ergonomic nozzle

Percentage calculated based on the product weight, excluding the hose

Aquaflora Holiday Single and Tris

A drip watering system for pot plants. To start watering, just attach a plastic drinks bottle of 0.5 to 2 litres capacity, filled with water to the spike, pierce a small hole in the upturned bottom so that air can escape, then push the spike into the soil and adjust the flow of water as required. It incorporates a special outlet grille that delivers each successive drip directly to the roots, avoiding waste and evaporation of the water.

OGE!

RECO®

REUSE REDUCE RECYCLE

WE ARE GREEN

The first irrigation range,
with over 70% recycled plastic

REUSE, REDUCE, RECYCLE,

the new approach of G.F. engendered in the RECO range.

A range made with more than 70% of recycled plastic, a range that is rigorously Made in Italy. A new production chain cycle, more attentive to sustainability and CO2 emissions. A new Mission, a future-oriented Vision, because correct irrigation practices must start from respect for the environment. **We are green.**

REUSE

Give plastic a second lease of life

The Circular Economy concept can be applied also and above all to the plastic production chain. In recent times the use of this raw material in the manufacturing sector has been rising steadily, although recycling practices are unable to keep up. This is the background to the birth of the RECO range.

Reuse - The irrigation articles of the RECO range are made of post-consumer polypropylene (e.g. sourced from domestic sorted waste collection nationwide) and not all: also material taken from industrial scrap produced by companies operating in a range of different sectors (medical, building construction, automotive and many more besides).

The system therefore considers not merely the industrial process, but also the waste produced by end consumers, thus making the production process as complete as possible and with the greatest potential for positive impact.

Recycle - thanks to the replacement of conventional plastics with sustainable materials, **more than 70% of the RECO range is made from recycled plastics.** The process adopted allows G.F. to take what is deemed to be a waste product and give it a New Lease of Life: from waste to new resource.

ENVIRONMENT

Reduce emissions

We must take care not to forget the impact on climate: processes of transformation and use of raw materials produce a major impact on the environment and an increase in CO2 emissions. More rational use can reduce the production of carbon dioxide and help to improve the health of the environment.

Reduce - with the aim of reducing both CO2 emissions and those released by the use of fossil fuels, thus reducing the negative footprint of the production process, products in the RECO range are made using ABS sourced from G.F.'s own industrial scrap. After suitable reprocessing, the ABS is transformed into a reusable raw material. **This system allows G.F. to maintain a more sustainable supply chain with reduced CO2 emissions: each product in the RECO range allows a saving of more than 50%* in CO2 emissions compared to an equivalent product from the conventional range.**

(*) Average, non-contractual data that may vary in accordance with external factors.

FIRST IN THE GARDEN SECTOR

Unconventional innovation

G.F. has always been committed to the continual development of the quality of products and of a range that is increasingly aligned with market needs and demands. That's why G.F. is the first player in the irrigation accessories sector to develop a range made from renewable sources.

RECO is the first range of irrigation accessories composed of more than 70% recycled plastic.

A complete, essential and intuitive range. A line that accepts no compromise: the maximum G.F. quality, combined with respect for the environment.

G.F. PRODUCTION CHAIN CYCLE

SUPPLY CHAIN AND PRODUCTION

Thanks to the Procurement, R&D, and Quality departments, and thanks also to its ultra-modern production plants, G.F. can guarantee highly attentive selection of resources and close control of each stage in the production process, from incoming raw materials to final assembly. **All this, combined with constant monitoring and assessment of all suppliers, allows us to work exclusively with safe and certified partners.**

Post-consumer material

Industrial scrap

Part of G.F. scrap becomes recyclable

Virgin raw material

Threaded tap connector

- Internal screw thread for tap
- Grabbing surface
- Male connection to connect to the hose terminal

Dual outlet tap connector

Dual outlet tap connector with differentiated water flow adjustment. Flow-rate regulator-modulator for each outlet to adjust separately the flow rate until the total closing. Useful for coupling more accessories simultaneously.

“OPEN” hose connector

For click-fitting the hose to the tap connector. Uninterrupted water passage.

Repair connector

For repairing damaged hoses or joining two hoses.

“Super rotax” rotating sprinkler

With two rotating arms with twin adjustment, for uniform watering of large and medium areas.

- Nozzles and arms separately adjustable
- Watering area from 30 to 160 sqm.
- Base of remarkable stability
- Maximum flow 15 l/min

Astral 4” oscillator

Oscillating sprinkler with continuously variable watering arc from 20° to 100°. Very quiet, it provides various watering possibilities, ideal for uniformly covering either small or large rectangular areas.

- plastic oscillating arm with 16 nozzles
- pin for cleaning the holes
- maximum flow 15 l/min

“SACK TROLLEY” collecting trolley

Light and manoeuvrable, the trolley is very practical for collecting grass, foliage and any other Indoor and Outdoor garden waste. The most popular spare sacks of 100 l. could be used with it.

"AQUABAG" Mini hose reel

The new mini version hose reel is ideal for watering plants, flowers and pots on patios, balconies, verandas and small gardens. Thanks to its dual purpose design — floor standing or portable — this is a product that proves highly practical when in use, by virtue of being compact and lightweight, and with its new attractive styling, makes leisure time in the open air even more enjoyable.

- 10 meters of braided flexible hose (8,5 m rewinding inside + 1,5 m outside)
- 2 hose connectors
- medium size adjustable nozzle
- 3/4" tap connector

aquaflora holiday

Stand-alone drip watering system for pot plants.

- **SIMPLICITY:** to start watering, just attach a plastic bottle filled with water to the spike, pierce a small hole in the upturned bottom so that air can escape, then push the spike into the soil and adjust the flow of water as required.
- **STEADY AND MEASURED RELEASE OF WATER:** plants are watered by constant drip irrigation, ensuring that there can be no harmful waterlogging of the roots; the release of water from the bottle is adjusted with a handy tap positioned on the front of the spike.
- **EFFECTIVE WATERING:** the Aquaflora Holiday incorporates a special outlet grille that delivers each successive drip directly to the roots, avoiding waste and evaporation of the water and ensuring that the plant will stay in perfect health.

UNIVERSAL FITTING FOR PLASTIC BOTTLES OF 0.5 UP TO 2 LITRES

FLOW RATE ADJUSTER

CONSTANT DRIP WATERING DELIVERED DIRECT TO PLANT ROOTS

PLASTIC

THE RECO
RECYCLED
HOSES

HOSE BY USING 75% RECYCLED PVC

CUTTING
CRUSHING
SIEVING
FIBER SEPARATION
MIXING DYE AND EXTRUSION
CUTTING

STEP A (1, 2)

The waste hoses are cut (1) and then crushed into small pieces of a few centimeters through shredders (2).

STEP B (3,4)

Then these small pieces pass through sieve systems (3) to separate the fiber from the PVC (4). This PVC residue is called "the semolina". We need to separate the fibers that comes from textile reinforcement from our hoses to improve the pressure resistance of our final products.

STEP C (5,6)

This semolina is mixed (5) with black colorant and processed in an extruder (around 150°/160°C) and then cut again into small granulates (6) ready to be used again in our hoses. This fiber separator system was developed only for this line.

WE ARE GREEN

TNT Tricoflex Non Torsion

that avoids kinks and twists ensuring a constant water flow. Soft Touch external surface that improves the grip of the product during use in the garden, resistance to abrasion on rough surfaces. It is not produced with contaminating elements (Cadmium, Barium and Lead); UV resistance and anti algae.

Foamed Technology

makes an Ultramemory structure that always returns to its original shape without undergoing deformations, making the hose lighter, softer and more performing.

More and more RECO

Using resources in a sustainable way is an absolute necessity in the modern world. The new line of GF recycled hoses enlarges the RECO recycled range: the first range of irrigation accessories, produced with more than 70% recycled plastic. Packagings are made of sustainable sourced cardboard. A future-oriented mission, because correct irrigation practices must start from respect for the environment.

We are green.
