Mission

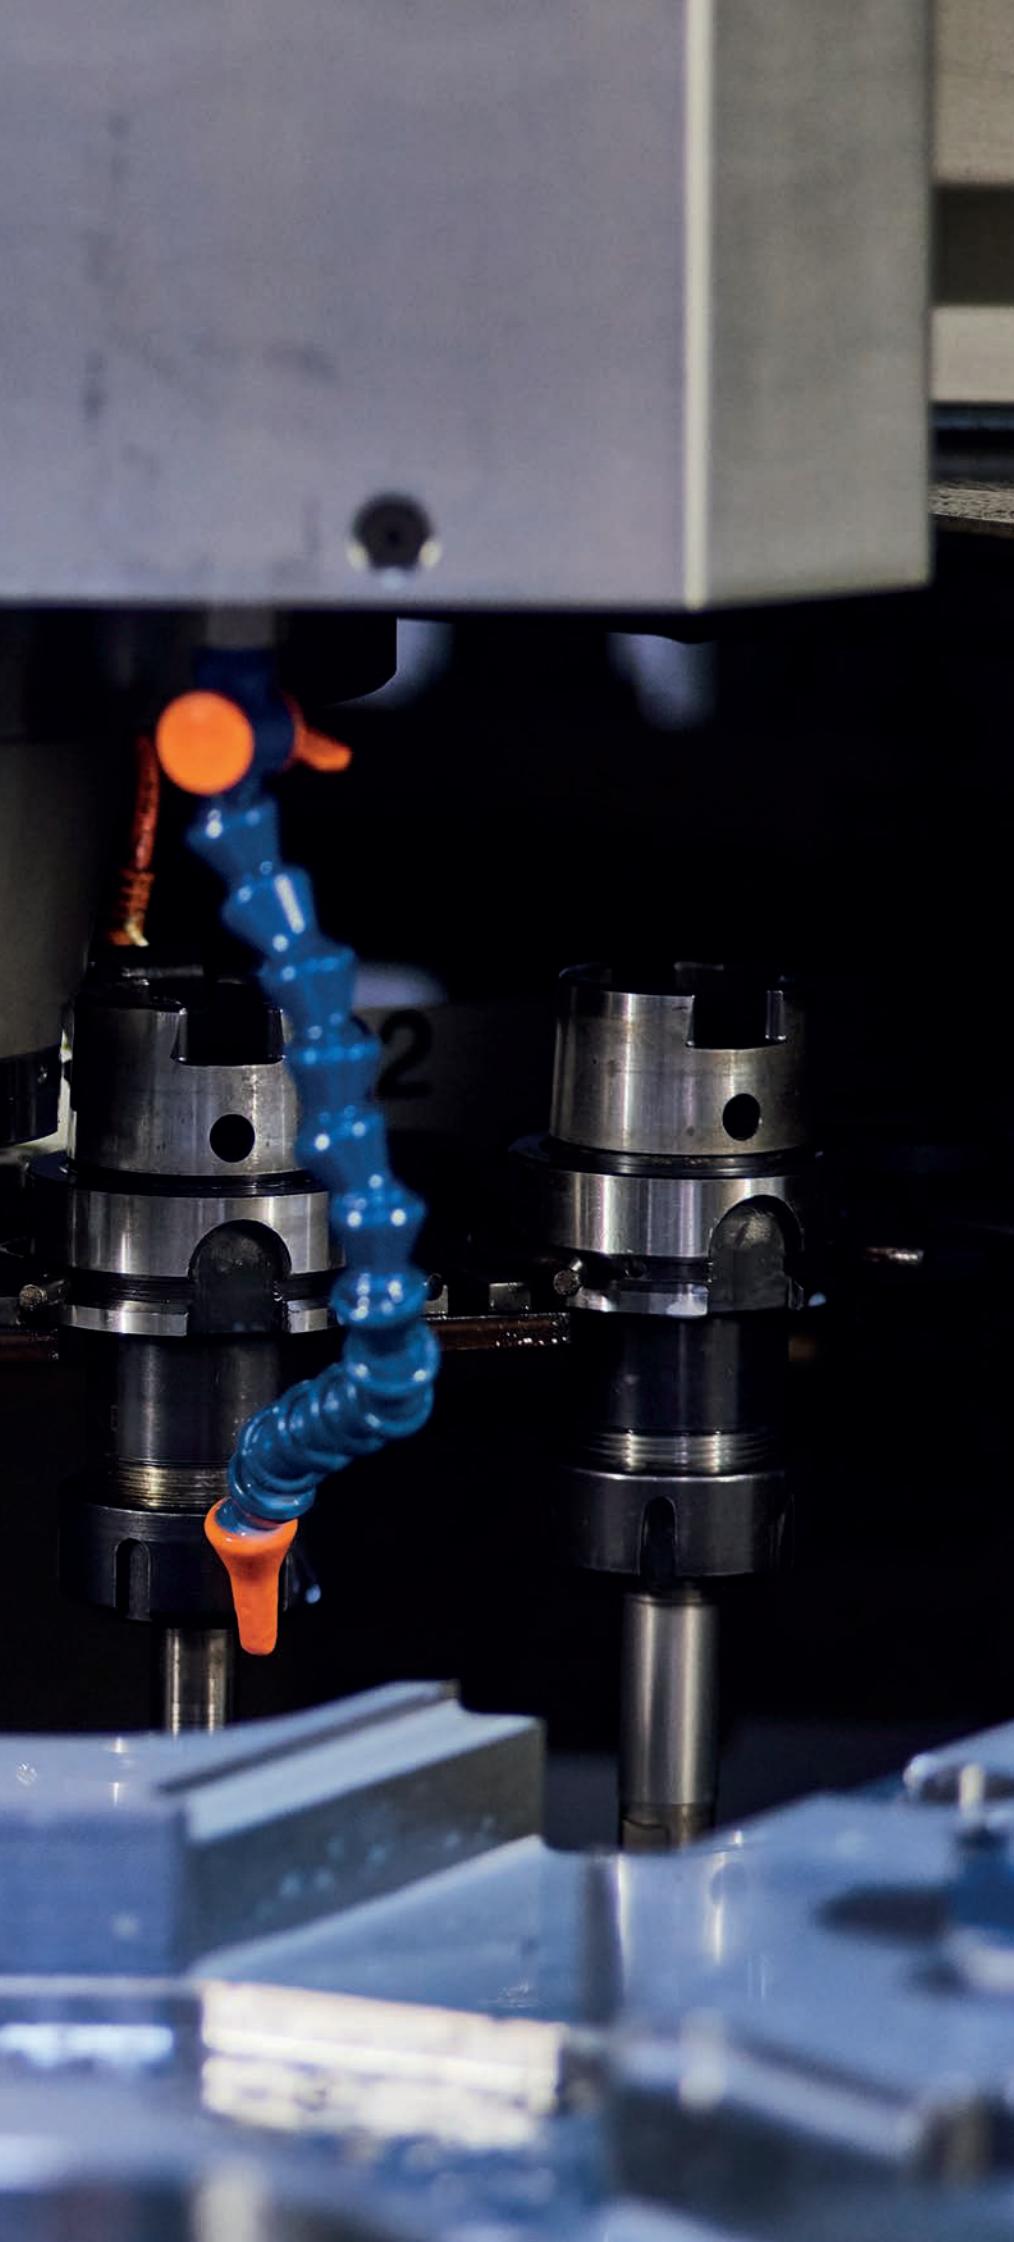

We strive to transform garden care activities into an all-round wellness experience.
Our passion guides us in the research of new top quality products.
Our flexibility means we can adapt to meet each new challenge.

Strengths

The full spectrum: R&D department, a dynamic and creative marketing team to handle the product development process, from creation of the product design to placement on the market. Superb quality, thanks to careful selection of materials and an efficient and technologically refined manufacturing system. A highly effective logistics and sales system that guarantees capillary distribution and attentive customer services.

Innovative drive
High quality
Made in Italy
Fast and dedicated deliveries
Flexible sales support
Bespoke design and production

Our research for the maximum quality levels in all our products is passion-driven

"We are guided by an approach based on progressive development and continuous research into quality products and innovation. Dedication, creativity and skill are combined to create products that merge style, emotion, function and passion for outdoor-indoor living." Our products reflect our efforts to anticipate needs and interpret them in line with emerging market trends, starting from the requirements of end users to guarantee the satisfaction that comes from purchasing attractive, high quality products that offer the utmost ease of use. An all-Italian company renowned for its original and distinctive product concept. Excellence made in Italy.

Continuous research & evolution

We are guided by our passion for constant innovative progress to make high quality products, never resting on our laurels but always striving ahead. We meet each new challenge by giving our best to secure the best results. Due to the use of that most precious of resources: water, we strive to transform every garden space into an inexhaustible source of wellness. An international organisation operating in more than 50 countries. We have 50 years' experience in thermoplastic moulding and high-tech tooling design. Our products arise from the desire to keep one step ahead of the demands of our clients, offering a unique interpretation of market trends. We start from end users' needs so we can create technical products of superior quality that are easy to use and will always exceed expectations. A company with a lean structure and an efficiency-based business model that allow us to guarantee absolute quality and reliability, from the concept right through to sales. We offer our legacy of professional experience to develop products that combine style, emotion, function and passion for the upkeep of green spaces

Ecology

Using precious natural resources in an aware and sensitive manner has become a sine qua non in the modern world. Respecting and sharing resources becomes a fundamental mindset and a model of reference. With this awareness, G.F. prepares for the future, offering its expertise for the creation of products that combine practicality with environmental respect. **Environmental system certification to ISO 14001:2015** G.F. has a history of the utmost attention to the factors of sustainability and environmental impact reduction. ISO 14001:2015 certification confirms our unerring commitment to monitoring our production performance in compliance with our company Environmental Policy. By raising awareness at all levels of the organisation through the setting of documented objectives and milestones, G.F. confirms its commitment to a

path of continual improvement in accordance with its environmental policy. **G.F. Eco product** Eco-sustainability means, primarily, the development of products that use non-polluting alternative energy sources. A representative example taken from G.F.'s extensive product offering can be found in the G.F. SUNNY range of solar showers: pure energy to serve people, exploiting Nature Resources Aware use Environmental respect

Quality makes the difference

Continual improvement of the quality of products and services, use of premium grade materials, control of products and processes, customer satisfaction analysis, energy saving, reduction of emissions and environmental impact: these are the priorities that have always guided our business. Compliance with EN ISO 9001:2015 and EN ISO 14001:2015 is an important guarantee for clients and a testimony to the company's active and constant commitment.

Design & function

Customer lifestyles and desires are collected and transformed into innovative and exclusive solutions. A team of skilled engineers and product designers to handle project development, from injection mould tooling to product manufacturing. An in-house prototyping area for optimisation of time-to-market . An organisation based on reciprocal trust and collaboration to offer quality of product and service, with special attention devoted to the environment and a strong sense of social accountability.

Packaging & display

From styling to marketing and communication strategies. From Graphic Design to content creation. **From the product to placement in-store.** **The packaging and display line** is developed in compliance with precisely defined marketing and communication strategies, optimised in relation to the display spaces, and designed to promote the **Vision** of the G.F. range.

Swivel tap connector

Swivel tap connector with 180° joint to connect the hose to the tap, to avoid kinks during use.

- 3/4" (20-27mm) tap connector

Dual outlet tap connector

Dual outlet tap connector with differentiated water flow adjustment.

Flow-rate regulator-modulator for each outlet to adjust separately the flow rate until the total closing. Useful for coupling more accessories simultaneously.

Multi-outlet distributor for threaded taps

5 separate adjustable connections to link to hose connectors or programmers.

Has 3 adjustable ball-cocks.

Ball-cock with flow control

With threaded 3/4" female connection it can be used for attaching hose connectors to the 5-outlet distributor.

aqua**bag** MAXI

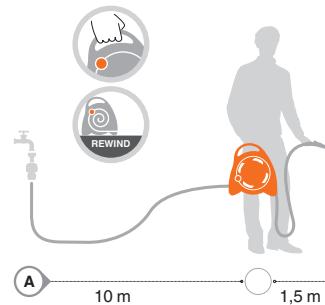

"AQUABAG" Mini hose reel

The new mini version hose reel is ideal for watering plants, flowers and pots on patios, balconies, verandas and small gardens. Thanks to its dual purpose design — floor standing or portable — this is a product that proves highly practical when in use, by virtue of being compact and lightweight, and with its new attractive styling, makes leisure time in the open air even more enjoyable.

- 11,5 meters of braided flexible hose (10 m rewinding inside + 1,5 m outside)
- 2 hose connectors
- "3 JET" variable flow-rate ergonomic nozzle
- "indoor-outdoor" ¾" adaptor, ideal for any type of tap, also for those used indoors (for example: kitchen, bathroom, laundry...)

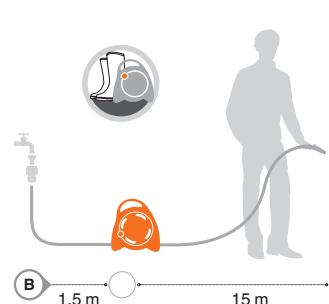

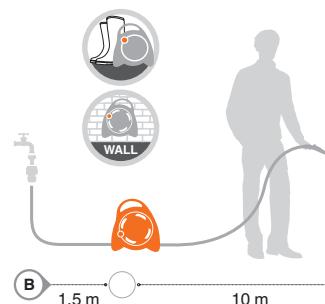

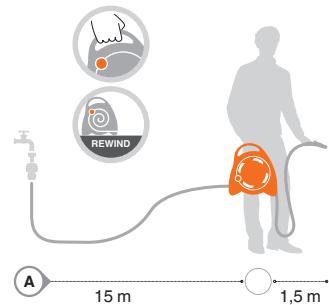

Product displays are in the merchandising section.

"AQUABAG MAXI" Portable hose-reel

Designed for any application that requires a compact product, it is ideal for balconies, terraces, medium-sized gardens. Manually rewinding, portable, easy to store.

- 16,5 m of braided flexible hose
- 2 quick click hose connectors
- 3/4" tap connector
- 8 jet ergonomic nozzle

"Tank 2" trolley

- Capacity 70 m of 1/2" hosepipe
- Supplied complete with hose connectors

"IDEA" trolley

Plastic and metal hose reel trolley, practical and sturdy, guaranteeing optimum performance. With its retractable telescopic handle, the trolley is truly compact and easily stored, even in tight spaces. Perfect for users seeking a complete and versatile watering solution.

- With wheels and retractable telescopic handle
- SOFT TOUCH non-slip handle
- Capacity max 60 m of ø1/2" hose

"IDEA PREMIUM" metal trolley

- Steel discs and drum with anticorrosion treatment
- Retractable telescopic handle
- Soft touch non-slip handle
- 2 SOFT TOUCH "quick-click" hose connectors
- Maximum capacity 60 m of ø1/2" hose
- Extremely sturdy

"METAL TANK 75" metal trolley

- Sturdy and stable aluminum frame
- Steel drum with corrosion-resistant coating
- Retractable telescopic handle
- 2 SOFT TOUCH "quick-click" hose connectors
- Maximum capacity: 75 m 1/2" hose

aquaflora smart 16

- **INDEPENDENT:** works without batteries, electricity or connection to the tap.
- **INDOOR AND OUTDOOR:** can be used safely both inside and outside the house
- **ADJUSTABLE:** to water up to 16 average-sized plant pots for 14/18 days
- **SIMPLE AND SAFE:** the appropriate amount of water is supplied through an automatic dispenser, sufficient to maintain

correct dampness in the soil. Equipped with an 18-litre tank, it can deliver 1 to 2 litres of water a day at precise and regular intervals. Fitted with scale prevention device. Easy to use and, convenient.

Watering system for apartments

An autonomous device and very simple for watering up to 16 medium-sized apartment vases for 14/18 days. Thanks to an automatic doser, the right amount of water is dispensed, sufficient to maintain correct dampness in the soil.

- 18 l water tank
- Dispenses from 1 to 2 l of water a day
- CONTAINS:
 - 1 automatic dispensing doser
 - 1 tank of 18 l
 - 30 m of capillary hose in PVC
 - 16 tube supports
 - 20 plugs
 - Instruction manual

- WORKS:**
- WITHOUT ELECTRICITY
 - WITHOUT BATTERIES
 - WITHOUT CONNECTION TO A TAP

AQUATIME
[EASY DROP]

NEW

"AQUATIME EASYDROP"
electronic programmer

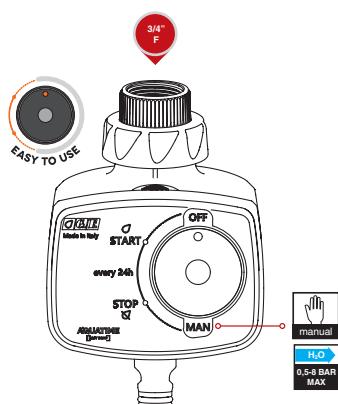

Simple, reliable and with a modern design, it allows setting different programs using the convenient selector knob. Set the knob on START to begin irrigation and on STOP to interrupt irrigation. The irrigation cycle is stored and automatically repeated every 24 hours. It's therefore possible to configure several combinations.

- Set the knob to MAN for manual starts outside of programming cycles
- Powered by 9 Volt alkaline battery
- Water flow stop device in case of dead battery
- Electrical components protected from water and moisture
- 3/4" tap connection
- Maximum operating pressure 8 bar

NEW

"AQUATIME DUE.5" electronic programmer

Simple, intuitive and practical, with a modern design, it has programs that can be combined to create up to 25 + 1 possibilities, manageable through the two easy-to-use selector knobs.

- starts every 6, 12, 24, 48, 72 hours for 1, 3, 5, 20, 45 minutes
- manual start button for starting independently of the programme cycle
- button for delayed start 1 to 8 hours after initial setting depending on user needs
- Easy Balcony function: ideal for drip irrigation
- powered by 9 Volt alkaline battery
- Water flow stop device in case of dead battery
- electrical components protected from water and moisture
- 3/4" tap connection
- Maximum operating pressure 8 bar

"GF16 easy" electronic programmer

Simple and reliable, it features programs that can be combined with each other up to 16 + 1 combinations, selectable through a handy knob selector.

- Starts every 6, 12, 24, 48 hours with prefixed watering times.
- "Easy garden" program for the optimization of the watering cycles: two preset daily watering to water properly morning and evening, improving the absorption of water by the soil, thus avoiding the plants damaging.
- manual start button for starting independently of the programme cycle
- works with 9 volt alkaline battery
- device to stop the water flow in case the battery runs down
- electrical components protected from water and humidity
- 3/4" attachment to tap
- maximum pressure in use 8 Bar

GF48

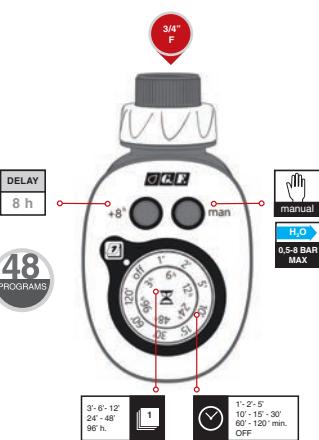

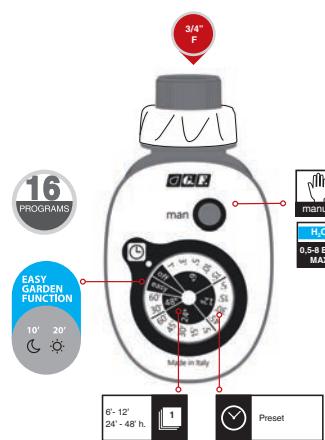

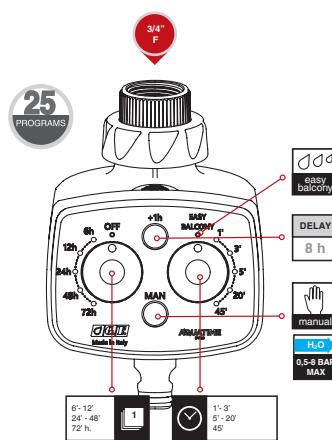

"GF48" electronic programmer

It is simple, easy to understand and practical to be used, provides combinations of programs up to 48 possibilities managed through the easy to use concentric knob switches.

Starts every 3, 6, 12, 24, 48, 96 hours for 1, 2, 5, 10, 15, 30, 60, 120 minutes.

- manual start button for starting independently of the program cycle
- button for delaying of 8 hours after the initial setting-up
- works with 9 volt alkaline battery
- device to stop the water flow in case the battery runs down
- electrical components protected from water and humidity
- 3/4" attachment to tap
- maximum pressure in use 8 Bar

GFPRO
ECO WATERING COMPUTER

Bluetooth® GFPRO Eco Watering Computer irrigation programmer

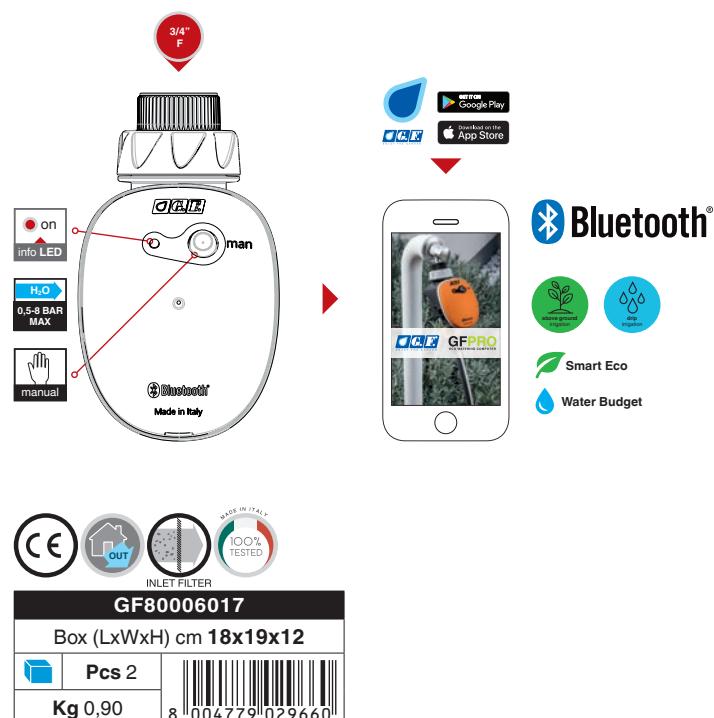

■ PRO Eco Watering Computer irrigation programmer controlled via **GF App** to manage home-gardening irrigation directly from your smartphone. Easy to use, it allows irrigation programming by connecting the device to the programmer via **Bluetooth® wireless technology**. Through the control panel of the **GF App** it is possible to:

- **Set up customized programs:** setting irrigation start time, duration and frequency for a maximum of 4 daily irrigations.
- **Set up predefined programs:** designed for irrigation at the optimal time of the day and differentiated between surface irrigation and Micro/Drip irrigation.
- **Set up the ECO function:** it adjusts the duration of the

programs previously set according to the current season, thus avoiding water waste for a more ecological choice.

- **Manually adjust the programmed watering duration:** it is possible to increase or decrease the duration of the programs previously set based on warmer or rainier weather forecasts for the next 3 days.
- **Manually open or close the water flow.**
- **Combine the app and simultaneously manage multiple GFPRO Eco Watering Computer programmers.**

App available for iOS and Android devices.

25 mm polyethylene hosepipe

Hosepipe for PN4 compression couplings
• 25 meters

1/2" diam. porous hosepipe

Ideal for localised watering of groups of plants, hedges, flowerbeds, vegetable gardens and orchards.

The slow and continuous release manages to save up to 50% of water perfectly maintaining damp soil and avoiding excessive evaporation.

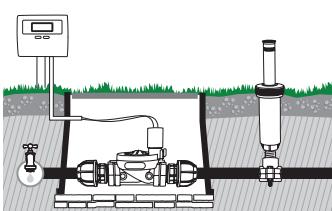

- 15 meters
- Complete with end of line cap
- Male connection
- Maximum pressure in use of 2 bar

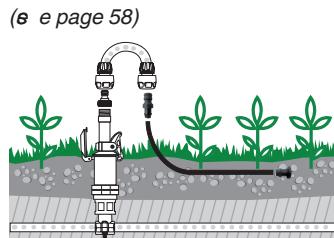

16 mm external diam. dripper hosepipe

Hose for localised watering of orchards, flowerbeds and plants, constantly maintaining damp soil avoiding excessive evaporation and allowing water savings up to 50%.

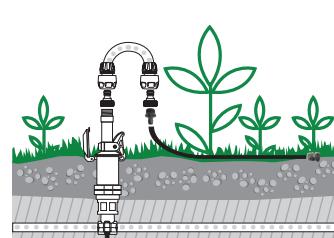

- 25 meters
- 30 cm spacing
- Flow 2.1 l/hr

- Permanent store

PROGRAMMING CHARACTERISTICS

- 2 independent programs
- 1 start per day per each program
- Watering cycles selected per weekly days
- Watering duration from 1 to 240 minutes/zone
- Water budget from 10 to 200%
- Manual starts
- Low Battery function

THE MOST COMPLETE SYSTEM FOR EFFICIENT, LOCALISED WATERING; FULLY STAND-ALONE THANKS TO THE WATERING PROGRAMMER. IDEAL FOR MEDIUM-LARGE SIZED GARDENS THANKS TO ITS WATER SAVINGS AND EVEN WATER DISTRIBUTION.

Electric valves

Battery operated programmable electric valve

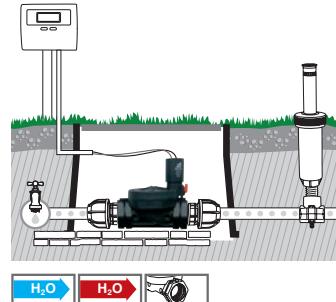

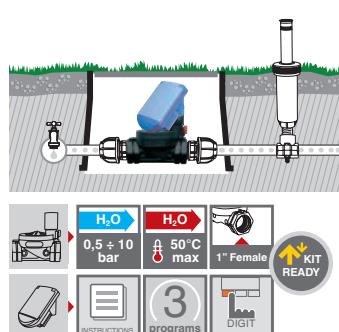

Works by 9 volt alkaline battery, completely sealed against damp and dust.

- 1" female thread
- 3 programme possibilities
- P1 - ta start at a fixed time every day with a duration from 1 minute to 11 hours and 59 minutes (factory setting with start at 6.00 am for ten minutes duration).
- P2 - only one start on the selected days at the fixed hour with a duration from 1 minute to 11 hours and 59 minutes.
- P3 - three independent daily starts on the selected days with a duration from 1 minute to 11 hours and 59 minutes

Electric valve

Made from synthetic elastomers, stainless steel and corrosion-resistant thermoplastic materials.

- 1" female thread
- Manual opening for winter draining
- Progressive opening and closing to avoid water knock
- Working pressure from 0.5 to 10 bar
- Max. flow temperature 50°C
